Screenshot:

Domain: Gender Equality

Visualised Dataset:

- Gender Inequality Index by Country
- Source: <https://hdr.undp.org/data-center/thematic-composite-indices/gender-inequality-index#/indicies/GII>
- Attribute Types: Quantitative (for index)
- Author: United Nations

Data transformation/normalisation: None

Justification: I chose to use a choropleth map as the data varies according to countries (political borders).
